

INDUSTRIAL CARAVANS

Mobile Industrial Van Hire

Foundation Civil & Mining are the Victorian Regional Agents for the Hire of Vansite Industrial Mobile Vans. These are 8.7m & 7.2m Series Crib/Office/Ablution Combination Units, Specifically Designed to Meet the Stringent Standards of the Mining and Construction Industries.

Features that make these the best available in Australia:

- Mine spec approved
- Conforms to all Australian HSE regulations
- Solar Powered for cost effective efficiency
- Computer compatible 240vac diesel generator
- Internal and external low energy 12v LED lighting (doesn't need the generator running)
- Computer monitoring and control of 12v/240v functions
- Water, waste water and fuel digitally monitored and alarmed
- Large, frost free, ultra-modern 12v/240v fridge (that's always cold)
- 2x air conditioners (for "maximum" not "minimum" people comfort)
- Comes with all the "extra's" (complete tool kit, oil spill kit, fire extinguishers, seats, hot and cold running water, 2 x toilets/hand-wash cubicles, large awning, whiteboard, noticeboard, etc)
- Vandal resistant design (including double lock latches everywhere)

Industries which utilise industrial combination vans include:

- Mining
- Rail
- Roads/Freeways
- Pipelines
- Telecommunications
- Transmission Lines
- Remote locations without services availability

Why Use an Industrial Combination Van:

- Requires no tradies to set-up
- Fully self contained
- Easily relocated (7.2 Series can be moved with a 3.5t towing capacity ute or SUV)
- Increases workforce productivity (reduces unproductive commuting time)
- Reduces work vehicle requirements (workforce can start and finish on the job)
- Provides on-the-spot access to shelter and amenities during inclement weather
- Cost effective (when all the above is taken into consideration)
